Supportive Tool for Assessing  
Growth in Educational Systems

**STAGES** (Supportive Tool for Assessing Growth in Educational Systems) is a comprehensive on-line tool for evaluating, reporting, and developing high quality educational systems. Developed by Saginaw Valley State University in cooperation with the Bay-Arenac ISD and supported by Zimco, Inc., this revolutionary web-based program is based on Charlotte Danielson's system for teacher evaluation. **STAGES** provides the link between record keeping, information reporting, and strategy development that has often been missing.
